Two Braid, Non-skive Hydraulic Hose SAE R2AT/2SN

Tube: Oil resistant synthetic rubber

Reinforcement: Two braid of high-tensile steel wire.

Cover: Black, abrasion and weather resistant synthetic rubber. MSHA accepted.

Application: Hose range suitable to carry hydraulic fluids such as glycol, mineral oils, water, fuels, lubricants, emulsion, hydrocarbons etc, to realize the conveying of liquid and the transmission of hydraulic power.

Working temperature: -40°C ----- +100°C

Two Braid of High-tensile Steel Wire Non-skive Hose
